

ILT CaseLight Rugged Construction – Example

We claim that our [**CaseLight LED Cooler Light Fixtures**](#) are the most durable, best constructed LED Cooler Lights on the market, but seeing is believing!

The photo below is of a returned, *still-functioning* CaseLight fixture that was **RUN OVER BY A FORKLIFT** in one of our partner's warehouses and returned to ILT for replacement. *We plugged it in and it still worked!*

Enough said about CaseLight's rugged construction?!
